

WEBBER LAI

✉ weipo900116@gmail.com | [in](#) Webber Lai | [G](#) weipo0116

Education

National Chengchi University (NCCU)

Sep 2023 - Jan 2026

M.S. in Computer Science

- Thesis: Interactive semantic segmentation for large-scale aerial Gaussian splatting
- Advisor: Ming-Te Chi

Soochow University (SCU)

Sep 2019 - Jun 2023

B.S. in Big Data Management (Data Science)

Fudan University

Sep 2021 - Jan 2022

Exchange Program, CS & Engineering

Work Experience

LINE Taiwan Limited

Oct 2022 - Aug 2023

Social Content BD Team Intern

- Monthly performance analysis and report writing, providing insights
- Assisted in planning events and tracking execution for smooth progress
- Reviewed platform content and analyzed user reactions and preferences

Advant Analytics Tactics Ltd., AAT

Apr 2022 - Sep 2022

Data Science Consulting Intern

- Tested frontend packages in the KNIME platform
- Built web templates for finance and semiconductor clients

Projects

Interactive Semantic Segmentation for Large-Scale Aerial 3D Gaussian Splatting (*Individual*)

- Post-hoc semantic 3DGS editing for large-scale aerial scenes without retraining
- Enables interactive labeling and open-vocabulary queries with real-time rendering

VanGogh Visualization (*Individual*)

- Interactive visualization project on Vincent van Gogh artworks
- Uses image feature dimensionality reduction to cluster paintings and discover visually similar works
- [G](#) [GitHub](#)

DS Prediction of Ecommerce Transaction Fraud (*Team*)

- Machine learning project for ecommerce fraud detection
- Uses customer and transaction data to flag high-risk activities
- [G](#) [GitHub](#)

Technical Skills

Languages Python, R, JavaScript

Frameworks React, Node.js, Flask API, Bootstrap, D3.js

Tools & Cloud Git, Docker, Figma
